

AXC 7592 2400 A High Current SMU

Features

- Output current up to 2400 A pulse mode
- Programmable output voltage up to 40 V
- Free programmable pulse sequences
- Programmable pulse width from 300 μ s up to 1 ms
- Extremely low noise with linear output stage
- Integrated voltage measurement unit
- Integrated current measurement unit
- Integrated LAN, GPIB and USB interface
- Hardware trigger
